My Opinion

Read the model, answer, and write your paragraph.

Model: Should our school stop selling drinks in plastic bottles?

In my opinion, our school should stop selling drinks in plastic bottles. First of all, many bottles end up in the schoolyard and in the street. In addition, students can easily bring reusable bottles from home and fill them at the water fountains. Some people think that it will be less comfortable for students. However, if we put more water fountains in the school, everyone will have enough to drink. Therefore, I believe that this small change can make a big difference.
